New School

# Assessment and Monitoring Policy 2022- 2023

**This policy was reviewed on:**

**Date:** 8 Sep 2022

**By:** Euan Macdonald

**Policy will be reviewed on:** September 2024

**This policy was ratified/reviewed by Governors on:**

**Date:** 16 Sep 2022

**Frequency of review:** Every 2 year(s)

**Note:** This document uses the most current Government information and guidance at the time of writing. It may change according to Government policy.

# 1 | Guidance to Support Tracking of Pupil Progress

To ensure effective tracking of pupil progress Northstar New School has:

- Planning guidelines in place to support learning
- Assessment effectively linked to evaluation of learning and next steps
- Recording procedures in place including gathering and evaluation of progress
- Support effective pupil self-evaluation

## 2 | Planning

Planning is part of the assessment process and teachers should evaluate evidence of pupils' progress from previous work before moving on to the next block of work.

A variety of teaching and learning approaches should be used to meet the needs of all pupils and tasks matched to pupils' abilities and experience. Development areas for individual pupils or groups should be identified and recorded within the evaluations and next steps sections in Forward Plans. Differentiation is essential.

## 3 | Assessment

Assessment is the means of obtaining information, which allows schools, teachers, pupils and parents to evaluate pupil progress. The starting point for this is the curriculum and the processes of learning and teaching. Assessment is integral to the planning process and is a tool for reflection on programme construction and teaching. Assessment measures the success of learning, teaching and achievement and guides the next steps in learning. To assist this process Northstar New School has adapted the principles of 'Assessment for Learning' to support the needs of their own learning communities and ensure that they have in place:

### **Assessment FOR learning that:**

- Supports learning and teaching directly
- Is 'self-referenced' and personalised

- Compares the individuals learning now to the learning before
- Uses feedback continuously to identify strengths and development needs and plan next steps in learning

#### Assessment AS learning that:

- Involves conversations about learning and reflection on evidence
- Develops a language for, and skills in, self-evaluation
- Helps learners to understand and take responsibility for their own learning
- Assists learners to plan next steps
- Supports choices

#### Assessment OF learning that:

- Regularly evaluates learners' achievements in relation to planned learning
- Helps staff provide a summary account of progress for learners, their parents and other professionals
- Helps determine the allocation of additional support
- Uses moderation to ensure that there is robust evidence of progress and decisions about future learning

## 4 | Recording and Gathering Evidence

Recording is about capturing and profiling the knowledge, understanding, skills and attributes that young people have acquired. It involves considering the evidence of learning that has been gathered, reflecting on its quality and identification of next steps.

Recording assists teachers to:

- Share successful learning with pupils and identify development needs and next steps
- Monitor the effectiveness of teaching and pupils' progress in relation to attainment outcomes and targets
- Report pupil progress to parents.
- Transfer information to other teachers and appropriate agencies.
- Contribute towards schools' quality evaluation procedures.

#### Types of Record

Teaching records:

- A succinct account of teaching and learning aims
- A brief indication of teaching methods used
- An evaluative comment of how the class/groups have coped
- A note of next steps

Individual Records include:  
Folios/collections of work Records  
of self-peer assessment  
Indications of achievement  
Standardised Test results Teacher  
generated assessments  
Individual Support Plans  
Summaries of overall class performance could be:  
Group/Class targeting and tracking (Classroom Monitor)  
Half termly analysis

General:

Records of day-to-day progress kept by staff on a group/individual basis.  
Records of evidence in teachers' weekly / daily plans  
(Multifunctional Medium Term Plans)  
Project folders with examples of pupils' work

### Ways of recording

Evidence can be:

- Recorded digitally
- Paper copies in folios of pupil's work
- Feedback in pupils' folders
- Detailed in teachers' forward plans,
- Checklists, worksheets,
- Group/Class targeting and tracking
- Video recording and photographs (with parents' permission)
- Self/peer assessment sheets,
- Pupil progress reports
- Oral discussions with pupils

### What to record

Teachers should record for each pupil only what is useful and relevant for planning next steps in learning and for reporting progress. This should include brief comments on progress in relation to specific teaching aims, particular strengths and development needs. It may include pupil's approach to learning, their interests and information about personal and social development.

### When to record

Recording to take place:

- At the end of a planned block of learning and teaching
- As is required within the day-to-day running of the class

- In order to update individual/group pupils' records on an ongoing basis
- Prior to parent/carer consultations, teachers should ensure that individual pupil progress has been evaluated to facilitate the sharing of information.
- Half termly in the half term progress reports with the DH.

## 5 | Quality Assurance

A robust quality assurance programme assists in the process of effective self-evaluation to support learning and teaching.

External consultants will gather evidence through:

- A focused programme of school visits
- Analysis of standardised test data
- Classroom observations
- Evaluations of pupils' work
- Moderation
- Discussions with promoted staff, teachers, parents and pupils
- Schools' Improvement Plans

## 6 | Self Evaluation

The Northstar New School monitoring programme will support the development of effective self-evaluation and gather evidence through:

- Regular attainment and achievement reviews
- Regular tracking of individual pupil progress including Individual Support and Behaviour Plans.
- Standardised testing analysis
- Individual pupil / group progress
- Regular review of attendance and exclusion data
- Regular review of finance and resources to support learning and teaching
- Forward Plan monitoring and feedback to staff
- Classroom observations – to review learning and teaching and S.I.P. progress
- Performance Management Reviews
- Samples of pupils' work
- Pupil focus groups
- Staff/parents and pupil questionnaires

## 7 | Moderation

It is essential to have effective quality assurance and moderation processes in place. Moderation is the term used to describe approaches for arriving at a shared understanding of standards and expectations for the broad general education. It involves teachers and other professionals, as appropriate, working together, drawing on guidance and exemplification and building on existing standards and expectations to:

- plan learning, teaching and assessment
- check that assessment tasks and activities provide learners with fair and valid opportunities to meet the standards and expectations before assessments are used
- sample evidence from learners' work and review teachers' judgements
- agree strengths in learners' performances and next steps in learning
- provide feedback on teachers' judgements to inform improvements in practices

Moderation helps to ensure that there is an appropriate focus on outcomes for learners. Teachers' participation in moderation activities is a highly effective form of professional development.

The National Assessment Resource (NAR) has been designed to support assessment and moderation by:

- Providing examples of assessments of Literacy & English, Numeracy & Maths, and Health & Wellbeing for all ages and stages across all curricular areas
- Involving practitioners in developing, peer reviewing and quality .

## 8 | Standardised testing

Northstar New School uses standardised test information alongside teacher assessment to evaluate pupil / group / school progress and determine next steps for learning.

## 9 | Reporting to Parents/Carers

Northstar New School will use a combination of written reports and parental consultations to discuss individual pupil progress. Teachers should ensure that individual pupil progress has been evaluated to facilitate the sharing of information.

# 10 | Cycle of Assessments / Assessments Used

## Northstar New School Cycle of Assessment

			Term					
		Start of year	1	2	3	4	5	6
Type of Assessment	<b>READING (Baseline)</b> Hertfordshire Salford Sentence Reading Test		X		X		X	
	<b>SPELLING (Baseline)</b> Schnoll Blackwell		X		x		X

	<b>Big Write</b> (fortnightly) Ros Wilson Criteria			X	x	X	X	X
	<b>Behaviour Tracking (Daily)</b>		X	X	X	X	X	X
	<b>Pira/Puma</b>			X		X		X
	<b>Teacher Assessment</b>		X	X	X	X	X	X
	<b>MATHS</b> Classroom Secrets White Rose Maths		X		X		x	
	<b>SDQ</b>			x		x		x
	<b>Boxall</b>			x		x		x
	<b>McSherry Classroom Readiness Scale (as needed)</b>							
	<b>Mental Health and Well Being (both staff and pupils)</b>				X			

## Progress

- Every half term there is an assessment point
- The assessment point is the last week of each half term
- At every assessment point all teachers must update the progress of every student
- This is done by:
  - End of unit testing
  - Teacher Assessment
  - Classroom Monitor
  - Progress ½ term report and meeting with DHT

## Big Write

- This fortnightly testing of written English helps to inform progress.
- The assessment is suitable for all pupils as it forms a body of work that they identify as their own.
- *Big Write* can be used as an ideal benchmarking and progress-checking assessment.

## Behaviour Tracking

- These inform the targets for the students to work on.
- This ongoing data gathering will begin at the start of the academic year and be evaluated at the end of every term.

## SDQ

- The Strengths and Difficulties Questionnaire is used by CAMHS and specialist settings to identify adolescent mental health issues. The initial assessment triangulates information from the student, parent/carer and staff and assesses the areas that a student has high/low levels of need which then directly influences the targeted support they receive.
- The SDQ will be completed 3 times in an academic year with the assessment scheduled for the end of each term as helps to know the pupil first before completing this.

## Pira/Puma

- Formal end of the term assessment in Reading and Spelling. Determine the progress in age related expectations.
- A summative dimension that allows us to compare pupil progress at both an individual level and also against a nationally referenced standard.

## Boxall

The Boxall Profile is an invaluable resource for the assessment of children and young people's social, emotional and behavioural development. ... Understanding what lies behind this can make all teachers much more confident in their class management, which is where the Boxall Profile comes in.

At the beginning of each term ( 3 weeks after 1<sup>st</sup> term), every child has their profile screen completed. Targets and strategies are put in place and reviewed at the half term. New targets and strategies are set.

Early identification and assessment

Target setting and intervention

Setting individualised, achievable targets that reinforce target behaviour and skills.

Tracking progress

Helping staff review children and young people's target behaviour.
